History/Years in Service

MacKay & Sposito, Inc. (M&S) isn't your average engineering firm. Certainly, we are engineers, planners, land surveyors, landscape architects, and construction managers, but we are also innovators, visionaries, and problem solvers. More importantly, this professional staff forms a dynamic team spanning 5 core service areas, 4 offices, and over 60 employees focused on meeting our client's needs. This client-centered approach ensures we understand our client's expectations. We pledge to provide a specialized team with a deep resume of experience, with a commitment to communicating clearly and consistently, earning our client's trust to provide results. This philosophy is embraced by all of our team members.
