DESCRIPTION OF SERVICES:

Assurance Services

We provide in-depth analysis of financial statements and internal controls to give you a clear picture of your entity's financial status. This examination allows us to attest to the financial performance and operations of your business. Our candid recommendations will improve your accounting, administrative and operational efficiency and effectiveness. We offer a full range of administrative and compliance audits in addition to audits of financial statements.

Tax Services

Between market pressures and a complex regulatory environment, your tax planning and compliance is more complicated than ever. We take pride in understanding our client's business and emphasize proactive communication throughout the process. Aligning tax strategies to your individual business needs help us alert you to opportunities to minimize tax burdens. We provide an extensive range of consulting services governing state and local taxes.

Consulting Services

Our expertise and proactive approach can help you deliver outstanding value to your customers in an effective and efficient manner. We are known for providing clear assessments of clients' critical business and financial issues, and for offering innovative solutions. We also help organizations understand those industry and global economic and technological trends that could affect their business and financial success in the future.
