Building Vitality in Rural Washington
The Power of Partnerships

WPPA Spring Meeting 2017
Paul Kimmell
Business & Public Affairs
Avista Corporation
“Revenue is dropping,” said Karen Wallace, Malden town clerk/treasurer. While discussing the revenues for the town, Wallace also mentioned that it may be time for Malden to start looking into attracting businesses. “We have no plans right now,” she told the Gazette. “But we need to attract businesses.”

Mayor Christine Ferrell said she does not know what type of businesses Malden could attract in the future. “When you have nothing, anything works,” she said.

Ferrell said it would take a good plan to be able to attract a business or two to the rural community.

“I don’t know how we would approach it,” she said. “It’s pretty hard to attract.”

Ferrell added that the general conversation right now is to be tight on spending. “Doing our budget, we realized we have to be careful with everything,” she said. “We would absolutely entertain any ideas.”

Act through partnerships, financial resources and service to enhance community vitality and prosperity in the communities we serve

Effective Public Policy Outcomes
Drive positive outcomes at the local, state, regional and federal level

2017 Focus Areas

Customer Engagement
Products & services
Digital strategy
Customer choice

Financial Performance
Alaska opportunities
System modernization
Investments for growth

Community Vitality
Economic development
Avista partnership
Smart City

People & Performance
Safety
Innovation
Alignment

Financial Performance
Strengthen financial performance to remain a healthy company and an attractive investment

Effective Public Policy
Outcomes

Updated April 2016
The social issues that are most prioritized are typically aligned to the core competencies and unique demands of a particular industry. More than 80% of utilities companies include STEM training and education among the issues they prioritize for attention and investment. At least one-half of utilities companies prioritize community economic development and environmental sustainability. Nearly 40% include K-12 education among the top five issues, and the inclusion of education as a top issue addressed is a trend that has remained stable since the survey was first conducted in 1995.
ECONOMIC PROSPERITY AT AVISTA

Avista’s geographical diversity requires a responsive and flexible economic prosperity strategy.

Avista contributes to the growth of its communities and customers as a professional, stable and supportive corporate partner.

Strategies are regionally specific and targeted to provide the greatest sustainable economic lift in order to retain and grow businesses, jobs, wages and populations.
2016 PHILANTHROPY

- Health & Human Services, $689,456
- Environment, $25,010
- Economic Development, $670,011
- Youth, $177,552
- Arts & Culture, $183,873
- Education, $485,320

Total $2,231,222

Note: Some dues and initiatives not included
ECONOMIC PROSPERITY AT AVISTA

Desired Outcomes

Responsible service territory growth

Economically strong service territories

Prepared Workforce

Community Vitality

Positive contribution to the company’s financial goals

Expansion and retention of existing customers and support the recruitment of new customers
STRATEGY: WHAT WE DO AND WHY

Rising Tide Initiatives that build the community’s capacity for sustainable and responsible growth. (WSU Medical School/U District)

Strategic Involvement and Investment in organizations that lead in business attraction, recruitment and expansion, redevelopment initiatives, and public policy advocacy. (38 EDOs; loaned execs)

Provide Resources for community organizations and initiatives vital to economic prosperity. (UI Vandal Gap Fund; Co-Working Space-Spokane)

Purposeful Intelligence Gathering that enables Avista’s senior leaders to make well-informed and wise economic prosperity investments. (Key placements – 300+)

Advise and Facilitate customer retention and expansion efforts
RURAL PROSPERITY

Raise our communities’ capacity for responsible economic growth by both leading and supporting collaborative initiatives that increase long-term prosperity and help build sustainable rural communities.
In order to foster prosperity within the rural communities we serve, we will strive to attain economically sustainable, environmentally responsible and entrepreneurial thinking in a collaborative community framework.
RURAL PROSPERITY

We want to help build strategies that are *flexible, responsive and reflective* to the needs of our communities and have the ability to translate these into *locally-driven, appropriately scaled initiatives*. 
KEY TARGETS

- **Community Capacity**
  building local governance and leadership

- **Infrastructure**
  investment, expansion and enhancement

- **Education/Workforce**
  development, recruitment, retention and expansion

- **Economic Development**
  initiatives and collaborations, sustainable and affordable growth
Infrastructure is the Foundation of a Prosperous Economy.

Cities, Counties, Ports, and Businesses are Part of the Solution.
Connecting the Dots of Ohio’s Broadband Policy
OSU Study, April 2017

“It is widely agreed upon that having high-speed Internet access is becoming an essential utility for almost all households and businesses to participate in our economic, cultural and public institutions. “If you don’t have high-speed wireless broadband, if you can’t check that box, you’re not going to get that business and you’re not going to keep the 20-somethings.”

The Study calls high-speed Internet an “essential utility” and more proof that its necessity is harder and harder to debate.

The report also considered the economic aspects to expanding broadband instead of merely focusing on quality-of-life issues — and agreed with its assertions that “adoption matters more than availability,” and that access alone may not boost employment numbers.

“The real interesting equation will be, what will be the cost if you do nothing? Because if you overlay where broadband access is not available and adoption is below standard … you see higher unemployment, stagnant or decreasing household incomes and population migration.”
ECONOMIC PROSPERITY

Choosing the appropriate strategies

Partnerships are critical.

Most important elements of any successful ED strategy – relationships and collaboration.

Not just a seat at the table, but actively engaged as full partners in strategies for economic development.
Driving Regional Economic Growth Through Entrepreneurship
During the 2015-2016 biennium, eastern Washington was fortunate to receive funding from the State Legislature. The Startup Washington 365 (SW365) appropriation through the Department of Commerce provided operating and programming dollars to create rural Centers for Entrepreneurial Success.

Startup Whitman and Startup Asotin were created to provide a myriad of events and programming to support entrepreneurs and small businesses in south eastern Washington.
Startup Washington 365
Success Across the Region

Together, Startup Spokane, Startup Asotin, and Startup Whitman are connecting urban and rural ecosystems in an effort to deliver support to entrepreneurs, regardless of their stage or industry.

The following outcomes to-date* show the impact being made by SW365:

**Startup Asotin and Startup Whitman**
- 68 events
- 623 event attendees
- 126 entrepreneur assists
- 30 business starts

**Startup Spokane**
- 152 events
- 8421 event attendees
- 183 entrepreneur assists
- 88 business starts

(*September 2015 – December 2016 metrics)
Community Capacity By Building
Local Governance and Leadership

The Inland Northwest Partners is focused on enhancing the long-term vitality of a two-state region. The non-profit organization facilitates knowledge sharing to build strong economic bases among member communities.

More than 300 business and community leaders from eastern Washington and northern Idaho are members. Educational meetings, programs, and seminars are the core offering.

MEETING SPONSOR

About Becky McCray: Becky McCray is a small town business owner; she and her husband Joe own a retail liquor store and a cattle ranch. She shares insights from this real-world experience at her highly ranked website, Small Biz Survival; and in her award-winning book, Small Town Rules. Her practical perspective is often featured in a wide range of media, from The New York Times to The High Plains Journal. She makes her home in Hopeon, Oklahoma, a community of 30 people. Her goal is to deliver practical steps you can put into action right away to shape the future of your town.

Cost: $40 for INP members; $60 for non-members, (cancellations with refunds will be accepted through June 2).

To Register: Just fill out the form below and mail it, along with your pre-payment to INP, PO Box 164, Liberty Lake, WA 99019 or register online at www.inwp.org.

For more information: Call (509) 495-4064 or visit our web site www.inwp.org.

Directions to the 1912 Center, 412 East Third St. Moscow, ID 83843: Approaching Moscow from the north via US 95, proceed approximately 1 mile through town to Third Street. Turn left and proceed 1/3 mile – the event center is on your left. Approaching Moscow from the south, you will enter Moscow via US 95 – which turns into Washington St. As you approach downtown Moscow, turn right onto Third St. and proceed 2 blocks – the event center is on your left. Approaching from Pullman on Highway 8 – proceed west towards downtown Moscow and continue across Main St. for 2 more blocks – the event center is on your left.

Executive Summary

Aggressive Hiring Competition Over an Average Supply of Regional Talent

Supply (Jobs)
Whitman County is about average for this kind of talent. The national average for an area this size is 20,914* employees, while there are 20,914 here.

Compensation
The cost for talent is about average in Whitman County. The national median salary for your occupations is $43,808, while you'll pay $42,959 here.

Demand (Job Postings)
Competition from online job postings is high in Whitman County. The national average for an area this size is 1,222* job postings/mo, while there are 1,539 here.

*National average values are derived by taking the national value for your occupations and scaling it down to account for the difference in overall workforce size between the nation and Whitman County. In other words, the values represent the national average adjusted for region size.
Retirement Risk Is About Average, While Overall Diversity Is Low

Retirement risk is about average in Whitman County. The national average for an area this size is 1,116* age 65+ employees, while there are 1,116 here.

Racial diversity is low in Whitman County. The national average for an area this size is 6,843* racially diverse employees, while there are 3,985 here.

Gender diversity is about average in Whitman County. The national average for an area this size is 10,645* female employees, while there are 10,645 here.

*National average values are derived by taking the national value for your occupations and scaling it down to account for the difference in overall workforce size between the nation and Whitman County. In other words, the values represent the national average adjusted for region size.
Talent Is 2% Cheaper, While the Cost of Living May Make Attraction Difficult

In 2015, the median compensation for your occupations in Whitman County is $42,959. Based on the national median wage of $43,808 for this position, this means you will spend about 2% less to employ your occupations here. However, their actual purchasing power will be 8% less than the national median when we adjust for regional cost of living (which is 7% higher than average). This may make it harder to attract talent to the region at this price.
Demand (Job Postings)

For Every 1,539 Unique Job Postings, Only 1,276 Positions Are Filled

If there is a gap between unique job postings and positions filled, it may indicate unmet demand for your occupations. In the average month over the last 12 months, there were 1,539 unique job postings for your occupations, while 1,276 positions were filled. When there is significant unmet demand, competition will likely be higher.
549 Companies Are Competing for Talent

In the last 12 months, 549 companies in Whitman County competed to hire your occupations. The top 10 competitors and their job posting activity are listed below. Higher ratios of total postings to unique postings may suggest more intense hiring activity, as companies go to greater lengths to fill those positions.

- Certificate
- Associate
- Bachelor
- Masters or Higher
This United Way ALICE Report for the Pacific Northwest shows that one-third of our population struggled for basic necessities.

- Jim Cooper
  President and CEO
  United Ways of the Pacific Northwest
1.6M Households / 35% struggled to afford basic necessities.

In WA......13% (343,878 households) in poverty.
......19% (510,342 households) were ALICE...
Why are there so many ALICE households in the Pacific Northwest?

- **Low wage jobs dominate the local economy:** More than half of all jobs in the Pacific Northwest pay less than $20 per hour, with most paying between $10 and $15 per hour ($15 per hour full time = $30,000/year). These jobs — especially service jobs that pay below $20 per hour and require only a high school education or less — will grow far faster than higher-wage jobs over the next decade.

- **The basic cost of living is high:** The cost of basic household expenses in the Pacific Northwest is more than what most of the region's jobs can support. The average annual Household Survival Budget for a Pacific Northwest family of four (two adults with one infant and one preschooler) ranges from $46,176 in Idaho to $52,152 in Washington — double the U.S. family poverty rate of $23,550.

- **Jobs are not located near housing that is affordable:** Through the Great Recession, both housing affordability and job opportunities dropped steeply. Housing continued to decline slightly from 2010 to 2013 and job opportunities on average stayed flat, so it remains difficult for ALICE households in the Pacific Northwest to find both housing affordability and job opportunities in the same county.

- **Public and private assistance helps, but doesn't achieve financial stability:** Assistance provides essential support for households below the ALICE Threshold but cannot lift all households to economic stability. Government, nonprofit, and health care organizations spend $21 billion on services for ALICE and poverty-level households in the region to supplement their income, but even that total is still 25 percent short of lifting all households in the Pacific Northwest above the ALICE Threshold.

- Low wage jobs dominate the local economy
- The basic cost of living is high
- Jobs are not located near housing that is affordable
- Public/private assistance helps…but doesn’t achieve financial stability
Consequences:

ALICE households forced to make difficult choices such as forgoing healthcare, accredited childcare, healthy food, or car insurance.....

Effective change:

Only structural economic changes will significantly improve the prospects for ALICE households. **Critical linkage between strengthening economy and meeting ALICE’s challenges.....**
The key indicators for job opportunities are income distribution, the unemployment rate, and new hire wages. The more job opportunities there are in a county, the more likely a household is to be financially stable.
ALICE IN WHITMAN COUNTY
2013 Point-in-Time Data

Population: 46,026 | Number of Households: 17,340
Median Household Income: $34,410 (state average: $58,405)
Unemployment Rate: 8.4% (state average: 7.9%)
Gini Coefficient (zero = equality; one = inequality): 0.53 (state average: 0.46)

How many households are struggling?

ALICE, an acronym for Asset Limited, Income Constrained, Employed, are households that earn more than the U.S. poverty level, but less than the basic cost of living for the county. Combined, the number of poverty and ALICE households equals the total population struggling to afford basic needs.

What are the economic conditions?
The Economic Viability Dashboard evaluates community conditions for ALICE in three core areas. Each is an index with a scale of 1 (worst) to 100 (best).

Housing
Affordability: poor (34)

Job Opportunities: poor (38)

Community Resources: good (82)

What does it cost to afford the basic necessities?
This bare-minimum budget does not allow for any savings, leaving a household vulnerable to unexpected expenses. Affording only a very modest living in each community, this budget is still significantly more than the U.S. poverty level of $11,490 for a single adult and $23,550 for a family of four.

2017 Economic and Community Vitality Roadmap

What’s happening now?

- Double down on EDOs
- Governance capacity focus
- Startup WA build out
- Economic Gardening
- Site Readiness/Community Preparedness
- Big Ideas on Small Town Main Streets
Final Thoughts………..
13 Ways to Kill Your Community

1. Don’t have quality water.
2. Don’t attract business.
3. Ignore your youth.
4. Deceive yourself about your real needs or values.
5. Shop elsewhere.
6. Don’t paint.
7. Don’t cooperate.
8. Live in the past.
9. Ignore your seniors.
11. Ignore outsiders.
13. Don’t take responsibility

“Behaviors we tend to characterize as the harmless ingredients of everyday life are, in fact, proactive efforts towards the death of our own communities.”

- Doug Griffith & Kelly Clemmer
LaCrosse is the “little town that could—and did!” The town tries to emulate this motto and has, in recent years, been making several improvements to keep the town of 320 residents on the map.

Alex McGregor, a board member of LaCrosse Community Pride (LCP), said in a letter to Port of Whitman County Commissioners dated May 28, “We’ve pulled together, as a community, and overcome the odds of what the Spokesman-Review a few years ago called the inevitable demise of a rural farm town.”

McGregor is pleased with the work that has been done and knows it could not have been done without the town unifying.

“It’s a dramatic story of everyone pitching in and making it happen. It’s been really fun to see what a community of 320 can do.”
Mayor Konishi shared a success story from the charging station with the Gazette. “A young man came in to town, saw it and went into city hall and asked about it because he is interested in locating his business here,” she said.

Konishi said the individual had already been thinking of Rosalia as a place to locate, and while the charging station was not initially a factor in his decision, she said it is helping him to see the community as one that is fostering growth.

“It was proof that his sense was on track,” she said. “You get one thing going in town, and it gets everyone else stirred up.”

Konishi said she is excited to see the impact the charging station and other efforts in town have on the community.

“We’re very excited about the future,” she said. “It just all feels like it’s happening now, and it’s not just a dream.”
Economic prosperity in Washington is now dependent on innovation and creativity………..
Start having an honest conversation about the economy........
Start having an honest conversation about attitudes.....
Start having an honest conversation about education……
THANK YOU!
